

How did living in federally assisted-housing impact your life and make you the successful person you are today?

Describe your living situation before you moved into assisted housing. What were some of the obstacles you faced?

How long have you and your family lived in assisted housing? How has assisted housing affected your family's welfare and well-being?

What housing authority-provided programs and services did you find helpful during your time living in assisted housing (e.g., child care, health care, training programs, etc.)?

Do you have any goals moving forward? How has assisted housing impacted your ability to meet these goals?
